## Paul C. Buff, Inc.

WLC The Foam-Lined Travel/Location Case for Paul C. Buff, Inc. Flash Units

2725 Bransford Avenue Nashville, Tennessee 37204 Toll Free 1-800-443-5542 Local (615) 383-4118

Thank you for purchasing the **WLC Travel Case!** Please call us on our Toll Free Service Line, **1-800-443-5542**, if you should have any questions, or need any assistance. We're here Monday through Friday, from 9:00am until 5:00pm (Central Standard Time), ready to assist you.

The WLC case is especially handy and lightweight, ideal for carrying your lights and accessories. With removable pre-cut foam cubes, you can design your own layout for up to three Paul C. Buff, Inc. flash units (including all White Lightning and AlienBees models), with plenty of room left for accessories and cables. The exterior shell is a tough, impact-resistant HMW polyethylene, with a heavy-duty aluminum rim. For ease of handling, the case has a golf grip handle, cast chrome key locks, and a full length piano hinge. The case has a 3-piece foam interior with pre-cut cubed foam layers over a bottom cushion and a convoluted foam lid. The case measures 28" wide x 20" tall x 9" deep, and weighs 17 pounds empty. Please note that the WLC Travel Case is designed for around-town location work, and is not recommended for airline travel.

# **Designing Your Own Layout**

You may design your own layout with the pick-and-pluck foam cubes, pre-cut for your convenience. To minimize any shifting during travel, it is best to remove just enough cubes for your items to fit snugly in the case, with at least one layer of cubes between each light and accessory. There are two layers of cubes (442 in each layer: 26 across and 17 down), each measuring 1" across the top, and 1" deep. We have provided the following layout guide with suggestions, to help you design your layout. Feel free to explore and use any combination of items and shapes in order to maximize space. To protect your flashtubes and modeling lamps, you should always travel with the **shipping cover in place**. Should you have any safety concerns or questions, please call us. Good Luck, and enjoy your new case!
